Poster's title should be the fewest possible words that accurately describe the content of the poster (Center, Bold, Times New Roman ,16)

ABSTRACT (Times New Roman ,10)

An abstract is a concise summary of the key points of the research or project, and it plays a crucial role in a poster presentation. It gives the audience a clear overview of what your presentation will cover, helping them decide whether to engage further with the work.. A well-prepared abstract enables the reader to identify the basic content of a document quickly and accurately, to determine its relevance to their interests, and thus to decide whether to read the document in its entirety. The abstract should be informative and completely self-explanatory, provide a clear statement of the problem, the proposed approach or solution, and point out major findings and conclusions. **The Abstract should be 200 to 300 words in length.** References should be avoided, but if essential, then cite the author(s) and year(s). Standard nomenclature should be used, and non-standard or uncommon abbreviations should be avoided, but if essential they must be defined at their first mention in the abstract itself. No literature should be cited. The keyword list provides the opportunity to add 5 keywords, used by the indexing and abstracting services, in addition to those already present in the title.

Ke	vwo	rds.

First keyword, Second keyword, Third keyword, Fourth keyword, Fifth keyword.
